CLO REMARKS

I did Sports Science in UiTM. In 2016, I joined as a practical student and later became a permanent staff in PAFA. I has been hired as a CLO in PAFA last year after I have shown a good commitments at my work performance.

Eventhough I handling other roles in PAFA, I personally learned a lot about football being a CLO.

I am still learning in this club licensing platform and I can deliver well with the help and guidance from the people surrounding in PAFA. I am confident enough that I am able to submit all the relevant documents on time into the CLAS system.

I would like to thank the FAM CLA for giving their best support to PAFA towards a smooth process in club licensing since last year.

My goal is to deliver the best through the FAM club licensing platform and help to bring PAFA towards the greater heights and professionalism in modern football.
