## **4. LICENSE APPLICANT AND LICENSE**

### **4.1 INTRODUCTION**

This chapter defines the legal entity that must apply for the license and the license to enter the AFC and/or the National Club Competitions.

The legal entity applying for a license is called the license applicant. Once the license applicant has been granted with a license by the licensor it becomes a licensee. For this chapter, only the term license applicant is used.

### **4.2 DEFINITION OF LICENSE APPLICANTS**

#### **4.2.1 PRINCIPLE**

**4.2.1.1** The license applicant is defined only as a football club as being the legal entity fully responsible for the football team participating in national and international club competitions and which is either: -

- a) Any legal entity according to national law and/or FAM statutes, which is member of the FAM and/or its affiliated league (hereinafter: registered member), or
- b) has a contractual relationship with a registered member (hereinafter: football clubs)

**4.2.1.2** AFC Club Competition:  
The membership and/or the contractual relationship for participating in the AFC club competition must have lasted at the start of the licensing process at least two consecutive years. Any alteration to club's legal form or company structure (including, changing its headquarters, name, club colours, or transferring stake holdings between different clubs/entities) to facilitate its qualification on sporting merit and/or its receipt of a licence is deemed as an interruption of membership or contractual relationship (if any) within the meaning of this provision.

**4.2.1.3** National Club Competition:  
The membership and/or the contractual relationship for participating in the National club competition must have lasted at the start of the licensing process at least one consecutive year. Any alteration to club's legal form or club's structure (including, changing its headquarters, name, club colours, or transferring stake holdings between different clubs/entities) to facilitate its qualification on sporting merit and/or its receipt of a licence is deemed as an

interruption of membership or contractual relationship (if any) within the meaning of this provision.

4.2.1.4 Only a registered member or football club can apply for / receive a license. Natural persons may not apply for / receive a license

4.2.1.5 The license applicant is fully responsible for the participation in national and international football competitions as well as for the fulfilment of the club licensing criteria.

4.2.1.6 The license applicant is responsible for ensuring the following: -

- a) That all players are registered with the FAM and/or its affiliated league and, if professional players, that they have a written contract with either the registered member or the football club (in accordance with the FIFA/FAM Regulations for the Status and Transfer of Players);
- b) That all the compensation paid to the players arising from contractual or legal obligations and all the revenues arising from gate receipts are accounted for in the books of either the registered member or the football club;
- c) That the license applicant is fully responsible for the football team composed of registered players participating in national and international competitions;
- d) That the licensor is provided with all necessary information and/or documents relevant to proving that the licensing obligations are fulfilled, as these obligations relate to the sporting, infrastructure, personnel and administrative, legal, financial, and business;
- e) That the licensor is provided with information on the reporting entity/entities in respect of which sporting, infrastructure, personnel and administrative, legal, financial and business information are required to be provided. In turn, the licensor must assess whether, in respect of each license applicant, the selected reporting entity/entities is appropriate for club licensing purposes;
- f) Any event occurring after the submission of the licensing documentation to the licensor representing a significant change to the information previously submitted must be promptly notified to the licensor;

4.2.1.7 If the license applicant is a football club, it must provide a written contract of assignment with a registered member that must be approved by the FAM and/or its affiliated league and must include the following minimum content;

- a) The football club shall comply with the applicable statutes, regulations and decisions of FIFA, AFC, the FAM and the league as amended from time to time. This system of rules shall constitute an integral part of the contract of assignment. This football club shall also comply with decisions made by the said football bodies.
- b) The football club must not further assign the rights to other registered member or football club to participation in the national or international level competitions on behalf.
- c) The right of this football club to participate in the competition operations shall cease to apply if the assigning club's membership of the association ceases.
- d) If the football club is put into bankruptcy or enters into liquidation the right to apply for a license in the international and/or national competition shall revert to the registered member. For the sake of clarity should the license already be granted to the football club, then it cannot be transferred from the football club to the registered member; only the right to apply for a license in the following season shall revert to the registered member.
- e) The FAM shall be reserved the right to approve the name under which the club participates in the national competitions.
- f) The club shall, on request of the competent national or international arbitration tribunal, provide views and information, as well as documents on matters regarding the club's participation in the national and/or international competition.
- g) Confirmation of the fact that the registered member has the majority of the voting rights of the club. - h) The contract of assignment and any amendment to it shall be approved by the appropriate body of the FAM to become valid.

- 4.2.1.8 If the license applicant is a club it must provide the licensor with the financial information of the club and the registered member (e.g. consolidated financial statements as if they were a single company).
- 4.2.1.9 If the license applicant has control on any subsidiary, then consolidated financial statements shall be prepared and submitted to the licensor as if the entities included in the consolidation (“the group”) were a single football club.
- 4.2.1.10 If the license applicant is controlled by a parent, which may be controlled by another parent or which may have control over any other subsidiary or may exercise significant influence over any other associate, any transaction with the parent of the license applicant or any parent or subsidiary or associate of such parent must be disclosed in the notes to the financial statements to draw attention to the possibility that its financial position and profit or loss may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.
- 4.2.1.11 In addition to the above-mentioned mandatory provisions, FAM recommends the following guidelines to define the license applicant. In accordance with these guidelines, the license applicant should: -
- a) Be based legally in the territory of the FAM and play its home matches only in that territory. The FAM may define exceptions, subject to the approval of FIFA and AFC;

  - b) Accept no clauses in contracts with television, sponsors or other commercial partners which could restrict the club in its freedom of decision or affect its management.
- 4.2.1.11 All documents and/or evidences that are provided to the Licensor must be submitted only via the AFC Club Licensing Administration System (<https://clas.afc-link.com>) by the submission deadline announced in the Core Process (Article 5.2).
- 4.2.1.12 Any manual method documents submission via hardcopy and/or hand delivery and/or via email to the club licensing administration shall not considered.

*Supplementary information for Clubs and FAM on Criteria S.01*

Clubs along with FAM should plan and organize youth competitions at both the National and Regional levels to ensure that players, coaches, referees and administrators receive the required experiences and platform for their development.

An extended youth league competition will ensure that there is a continuous, progressive pathway for all the above personnel through a structured, age group competition tier that provides the minimum required number of high level matches.

Domestic age group competitions should be organized in alignment with Regional Youth Championships, AFC Qualifiers & Finals Under 16 & Under 19 (U-16 & U-19) as well as FIFA Under 17 & Under 20 (U-17 & U-20 World Cups). Detailed references should be made to the FIFA and AFC competition calendars.

The National Competitions should support the preparation of the national youth teams for further international competitions as detailed above, culminating in the FIFA Youth World Cups.

A strategic approach in terms of deciding on the appropriate age group competitions to be organized is highly recommended for FAM to fully optimise the developmental aspects inherent in competitions. Each player must be registered at the national and/or regional level.
